Title:

Technical regulations for the gas industry - Code of Practice G 462, July 2012

Description:

This draft Decision of Council of Ministers defines the regulation of the gas lines with steel pipes for operating pressure up to 16 bar - Construction

Objective:

This code of practice applies to the construction (design, construction, testing and putting into service) of steel lines serving to supply the public with gas, for a maximum permissible operating pressure of up to 16 bar

Document Type:

Technical Regulation

Details

Notifying Party:

Albania

Submission Date:
